**ELLEN
SANDELL MP**
STATE MP FOR MELBOURNE

The African Music and Cultural Festival is a wonderfully vibrant event that showcases the incredible cultures and communities of people who have roots in countries from across the African continent, and now live here in Melbourne.

Since I was first elected in 2014, it's been such a privilege to witness the incredibly positive impact that all the different Australian-African communities have had in my electorate and across the state.

I know the significance of this event, and it is truly an honour that we are able to hold this event here in Melbourne.

I look forward to celebrating this festival for many years to come.

Ellen Sandell
State Member for Melbourne
